

# EverChic

by Michela Milano

Dear Friends of EverChic, I am happy to share these pictures with you.

I really enjoyed the opportunity to meet in person with Dominica and the wonderful children she is raising and giving them a house and a family.

These children welcomed us with love, smiles and hope. Besides the circumstances they still believe they have the chance for a better life, because they deserve it, no matter what happened in their families, during their early childhood. This is what keeps them going on, faithful that a wonderful life is waiting for them.

I am so happy and thrilled to have chosen Dominica's orphanage, to offer them my love and support and I promised not to forget them and to keep spreading out the voice, letting people know that any little help means everything to them.

Please help me to make these children's dreams come true.

I'll post more pictures as soon as I plan my next trip to Santo Domingo at the Dominica's orphanage.
